

Lake House Footpaths

Apologies for the blockage of these paths at the present time [March 2019].

This will be temporary and when the ground dries up the tenants of the Lakehouse will clear all the tree remains and the path will be much improved and wider; machinery will be able to access the path to keep it from becoming easily overgrown as it has done in the past.

I am hoping that all the stiles will be removed and that there will be just two gates at points 1 and 2. The Lakehouse may be using this wider path as a private bridle way for some of their riders. This will only happen when the land is dry enough so that the surface will not become uneven.

It should be a big improvement so that walkers can have a really good circular walk near to the village.

Paul Thompson [18th March 2019]
